LOCAL MATTERS.

we would be glad to receive the roll of members in every Democratic Club in Anderson County, for the purpose of publishing them in the Andreson Intelli-GENCER. We propose to begin this publication in March, and hope that every Club will send us a copy of its roll by its delegates to the County Convention. This publication will contain the name of every Democrat in Anderson County, and will be a roll of honor which will probably be printed in pamphlet form and distributed over the whole County. Every Democrat, white or colored, should at once see that his name is entered on the list of some Democratic Club, in order that he may be distinguished from the Radicals, who are still seeking to ruin our country.

The public are requested to attend. Officers will govern themselves accordingly.

W. W. RUSSELL, Worthy Master Pomona Grange.

Notice, Grangers!

We have now on hand a full supply of acid and several hundred ton of guano in transit. The Executive Committee have taken every precaution to purchase both the acid phosphate and guano of the very best and highest brands. We also have en route a limited supply of ground bone, but none of the phosphate flour, as such a thing cannot be had in Charleston. Now, it remains for you all to be true to your order. Co-operate with the Pomona Grange, which has done so much for the whole county in this particular line. Prices of all fertilizers have been reduced full one-half in the short space of four years, and it only remains for you all to be faithful, and the time is near at hand when this article can be purchased from first hands at reasonable prices. There is a full supply of said phosphate at all points from Walhalla to Honea Path, and up to Greenville, and by applying at either of these points your wants will be supplied. W. W. RUSSELL.

MAP OF ANDERSON COUNTY.

HAVE completed and had copy-righted and lifthographed a gerieral descriptive Map of Anderson County, dated 1877, which is now offered for sale.

The Map shows the County and Township lines, (sixteen townships,) their exact lengths by the chain and directions by the compass. The Townships are handsomely colored, so as to be easily distinguished. The size of Map is 27 x 40 inches, nearly mounted for hanging. The public roads, railroads, with every curve, and proposed railroads; rivers, creeks, churches, cemetaries, mills, factories, water-powers, dwelling houses, Masonic Lodges, springs, Granges, camp-grounds, and other historic points of interest appear upon the geographical part of the Map. On the sides a marginal column of historical, statistical, geological and meteorological facts are given, which relate strictly to this County. These facts have been carefully gathered and prepared. The historic facts go back to the abandonment of this territory by the Cherokee indians one hundred years ago, when but few white men lived here. The wealth, area, latitude and longitude, kind of water and temperature, mean temperature of the atmesphere, average annual rainfall and population. The different religious denominations, with number of members, and various other matters of interest appear on the margin.

I have endeavored to present the County to the public in all of its varied aspects, in a new and attractive way, by combining with the geography the leading historical and other interesting facts of the County upon the same sheet, in such a short and condensed form that it will only require a glance to understand the whole. Contains about about 3000 geographical locations. were adopted by the Club:

Whereas, the General Assembly of this State did unnecessarily spring the question as to the legality of the election of six of the Circuit Judges of the State, and had a cass carried by the Attorney General before the Supreme Court in the special case of Judge A. J. Shaw, where it was decided adverse to Judge Shaw, thereby virtually unseating five other Judges; and, whereas, the people of the State, the General Asse ably and the Supreme Court, as far as we know, do not doubt but what their election was the free and full expression of the General Assembly which elected them, whether the election was held by ballot or viva voce; and, whereas, the decision made by the Supreme Court works injustice by depriving these six Judges of their office before their terms of office expired for which they were elected, and this done upon purely technical grounds, and not upon the grounds of incompletency or misdemeanor in office. Therefore, be it

Resolved, by the Democratic Club at Honea Path, That this decision by the Supreme Court is final, and that an election for the six Circuits must now take place before the six Circuits and the tendency and competency of five of the content of the six Circuits must now take place before the six Circuits must now take place before the county is included in the Eighth Circuit, know nothing of the efficiency and competency of five of the content of the six Circuits and right that the Hon. the U.S. For this superiority I am willing to contest, at a reasonable expense, in any State or U.S. exposition.

To the former residents of this County, who now reside in this State, cur neighboring States, or in the far West and Northwest, I would say that a perusal of this Map will be to them like a revisit to their old homes. The Map can be sent by Express, 50c. added to price.
